

**APPLICATION FOR REGISTRATION OF A RHODODENDRON NAME**

This form, duly completed, should be sent to **The New Zealand Rhododendron Registrar, Brian Coker, ‘Stoneycrop’, 8B Barnsley Crescent, West Melton 7618**. The New Zealand Registrar will check and confirm details as necessary before sending the form to the International Rhododendron Registrar for formal registration to be completed and entry into *The International Rhododendron Register*. Names already listed in the latest edition of *The International Rhododendron Register* or in subsequent supplements should not be re-used and are not acceptable for registration. Names proposed should also be in accord with the latest edition of the *International Code of Nomenclature for Cultivated Plants*. Details of these publications may be obtained from the above address. Registration should take place before the name is published or disseminated in any other way.

There is no fee for the registration of a new cultivar name. A certificate of registration is available free of charge and will be supplied on request.

Whenever possible please supply a good colour image (print, slide or electronic) and/or an herbarium specimen. These, together with the form, will constitute a definitive record or “standard portfolio” for future reference. If you supply any images please be sure to consider the copyright notice at the end of the form.

CERTIFICATE REQUIRED?                      Yes/No\*                      (\* = delete which is NOT applicable)

This new cultivar is a vireya rhododendron\*/evergreen azalea\*/deciduous azalea\*/azaleodendron\*/lepidote rhododendron\*/elepidote rhododendron\*?

### COPYRIGHT STATEMENT

I confirm I am the copyright holder and agree to the ICRA for *Rhododendron* making use of these images for any scientific or educational purpose in relation to the registration and correct naming of plants, whether through electronic or printed media.

Signature ..... Date .....

The copyright of the image will remain with the registrant. If you are not the copyright holder or have further questions, please seek advice from the registrar.

### WHAT WE DO WITH YOUR PERSONAL DATA (Personal Data Statement)

As defined by the UK Data Protection Act (1998), in completing and sending this form as an individual you are supplying the Royal Horticultural Society as International Cultivar Registration Authority (ICRA), which is a voluntary non-statutory organisation, with information that identifies you (“personal data”). This does not apply to registrations submitted in the name of an organisation, such as a commercial nursery.

To register your plant requires the ICRA to retain these personal data and in submitting this registration form you are agreeing to the storage of the data that relates to you. This information will be kept indefinitely and for the purpose detailed below. The ICRA undertakes to hold your personal data securely and not to make it available to anyone else during your lifetime, except where required for the purpose of cultivar registration.

Completion of the registration process requires the ICRA to publish information about newly registered plant names in print. The RHS ICRA's do this by means of a Register, or its supplements (usually produced annually) which are printed and distributed, as well as being made available online on the RHS website. These publications contain either just the name or the name and an abbreviated address of the registrant. When known, the abbreviated address will consist of just the home town, county/state and country.

Occasionally we share data on registered plant names with others involved with cultivar registration, including those outside the European Union. Should this occur we will try to ensure there is an adequate level of protection in such countries in relation to processing personal data.

Under the UK Data Protection Act you have the choice to opt out of your personal data being used by the ICRA. Please read the statements below and indicate your choice in each case.

I give permission for the RHS to:

- Include my name in published outputs from the Register database, and make it available through the RHS website (YES/NO\*)
- Include my abbreviated address (as home town, county/state, country) in published outputs from the Register database, and make it available through the RHS website (YES/NO\*)
- Share relevant personal data relating to this application with other organisations involved with cultivar registration (including those outside of the EU) (YES/NO\*)

(\* Please delete to leave the appropriate response)

Signed: ..... Date: .....

In addition this form may contain personal data about other people involved in the origin and development of the plant. Where possible, you should have obtained their permission to include their personal data if they are still living at the time of this application and these data are not already in the public domain.

Please indicate below whether you have obtained these people's agreement for you to supply their personal data:

I confirm that the following individuals have agreed to me providing their details as listed in this registration application, as indicated below:

..... (Name\* + abbreviated address\*)

..... (Name\* + abbreviated address\*)

..... (Name\* + abbreviated address\*)

..... (Name\* + abbreviated address\*)
